In case you have forgot, about labeled statements in Java, here is the code reminder, try to figure it out about how the code compiles with url in code:

```
public class LabeledStatementExample{
    public static void main(String[] args) {
        System.out.println("Hello World!");
        http://aminurrashid.com/en/java/java/labelled-code-block-in-java.html
        System.out.println("Hello");
    }
}
```
